

## Mandatory Professional Licensure Disclosure

Per U.S. Federal Regulations, 34 CFR § 668.50 (2016 Rules), in preparation for the adoption of 34 C.F.R. §668.43 (2019 Rules), and in compliance with the State Authorization Reciprocity Agreements Manual version 19.2, Adler University provides the following disclosure related to the educational requirements for professional licensure and certification.

This Disclosure is strictly limited to the University's determination of whether its educational program, *Master of Arts in Counseling: Specialization in Clinical Mental Health Counseling*, if successfully completed, would be sufficient to meet the educational licensure requirements in a state for the Clinical Mental Health Counselor occupation. Adler cannot provide verification of an individual's ability to meet licensure requirements unrelated to its educational programming.

This disclosure does not provide any guarantee that any particular state licensure or certification will approve or deny your application. Furthermore, this disclosure does not account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. Enrolled students and prospective students are strongly encouraged to contact their State's licensure entity to review all licensure and certification requirements imposed by their state(s) of choice.

The terms Clinical Mental Health Counselor, Licensure, and Certification vary by state and your state may use a different term. This determination is based on the educational and curricular requirements of each state for initial licensure (ie, excluding any special, temporary licensure that may be granted) and does not imply that other requirements for licensure do not exist or have been determined to have been met by this program. Each student should verify their particular situation with their intended state's licensing entity.
