

Completion Rates at Close of AY2019-20

Adler University defines 'Completion' in terms of the maximum time allowed for students in each program level (masters, doctoral) to satisfactorily complete all degree requirements. The 'Completion Rate' is the ratio of students who have satisfactorily completed all degree requirements within the maximum time allowed by their program. At the close of the 2019-20 academic year this included students who began a doctoral program in fall 2013 or a masters program in fall 2015 and did not have a Leave of Absence on their record extending their maximum time to completion.

Doctoral programs allow seven years from the date of first registration following admission to the program for students to satisfactorily complete all degree requirements. Two doctoral programs had a cohort reach this maximum time to completion by the close of the 2019-20 academic year: the Chicago campus PsyD program and the Vancouver campus PsyD program (see 'Satisfactory Progress' on page 24 of the 2012-13 Course Catalog).

Masters programs allow five years from the date of first registration following admission to the program for students to satisfactorily complete all degree requirements. Several master's cohorts reached their maximum time to completion at the close of the 2019-20 academic year including eight programs on the Chicago campus, five Online campus programs (these programs transitioned from the Chicago campus to the Online campus in 2015), and three Vancouver campus programs (see 'Satisfactory Progress' on page 30 of the 2014-15 Course Catalog).

Completion Rates by Campus at Close of AY2019-20			
Campus	Total Students at Max Time to Completion	Completed	
		#	%
Chicago	289	249	86.2%
Vancouver	84	74	88.1%
Online	57	49	86.0%
UNIVERSITY	430	372	86.5%
