

One-Year Persistence, Fall 2021 - Fall 2022

Adler University defines 'Persistence' as the ratio of students who have not withdrawn from the university over a specified period of time. 'Persisted' students include those who are still engaged with the University in a student capacity with *Colleague* status 'Active' and are either actively enrolled, on Leave of Absence, active but not registered, or pending graduation. 'Persistence' is synonymous to 'Retention' in that the students persisted, and the University retained those students. 'Withdrawn' students includes all students with *Colleague* status 'Withdrawn', the reasons for which may be voluntary or administrative.

One-Year Persistence rates review the status of students who were actively enrolled one year prior to the present term and presents the ratio of those students who have "Persisted" versus "Withdrawn". Hence, the Fall 2022 One-Year Persistence report reviews the Fall 2022 status of students who were active in Fall 2021. These rates are presented in aggregate for the University, and disaggregated by campus, demographics, and program.
